3. John Willie then led a discussion of the Pine Valley General Plan-Summary of Elements, which was distributed to members of the committee on July 1, 2002. Members had been asked to use this outline as they prepared for the presentation.

The five basic steps of preparing a plan were discussed in general by Mr. Willie. They are:
Elements of the Plan
Study & Analysis
Preliminary General Plan
Final Plan
Implementation

The total process should take approximately 18 months, with proper preparation and dedication.

At that point, a detail discussion was undertaken on the first three Elements of the Plan, as noted on pg 4/9 of the outline. Assignments to develop preliminary input (in writing) for the August meeting were made as noted below:

1. Mapping: "D Size" blue line copies of the map of the Pine Valley area will be available from Mr. Willie's office on July 17. Mr. Pendleton will arrange for someone to call in advance, then pick-up these outlines.

2. Land Use: Using the maps referred-to above, Mr. Pendleton will mark zones and assign individual members the task of canvassing each zone, noting the usage of each plot (residential, commercial, agricultural, open space, community facilities, religious, etc)

3. Community Facilities: An inventory will need be made of several of the commonly provided utilities:

A. Water: water rights, water supply, water storage, water distribution, etc, as currently existing, is to be reported. Ryon Gardner will supply current information, along with anticipated future requirements at the next meeting.
