**Pine Valley Special Service District Meeting (PVSSD)**

**Minutes of the Meeting Held on February 4, 2015 at 6:00 pm**

**Location: Pine Valley Fire Station, 680 E. Main Street, Pine Valley, UT**

Attending Members: Mary Esther Putnam, Chairwoman; Dall Winn, Vice Chair; Jeff Gardner; John Nichols; Herman Nordbruch
Also Present: George Cropper, Treasurer; Gerald Schiefer, Fire Chief; Beverly Udell, Secretary
Absent: N/A
Guests: Fred Pendleton; Guin Winn; Steve Shakespeare; Allen Cannon; Ford Northington; Sharron Northington; Rachel Carignan
**General Business**:

Mary Esther called meeting to order at 6:00 p.m.
Gerald led the Pledge of Allegiance

**Meeting Minutes**:
Minutes of the Meeting for January 7, 2015 were read by each Board member. Jeff motioned to accept the Minutes. John seconded the motion, and all else were in favor.

**Building Permits**: N/A – There is possibly some building going on Nay Hill by Randy Field. There could be some septic tank issues. The original developer planned on a putting in a 33-house subdivision on the hill, then that idea dropped to 10 houses. Randy purchased the whole hill from that developer and now he plans to just build one large home. Steve had already spoken to Judd Burgess (water) and there is approximately 30 lbs of water at the top of the hill. Randy has agreed to put in the necessary 6" line and shut-off. The road leading to the plot is not County Code, but if it is considered a "driveway" it might be.

**Board Member Reports:**
**Mary Esther: N/A**
**Dall Winn:** The PV Irrigation Company's bill has now been paid in full. The remaining $10,000 was paid a few weeks ago. George has a receipt on file. * Applications for the two openings on the Board of the Pine Valley Local Administrative District are still being taken by the County. Apps may be obtained at our Post Office and also the Washington County web site or County Commissioner's Office. We hope to have a decision in March. * Fire hydrants are needed in the west of the Valley. Just a reminder for Steve Shakespeare to gather and submit a report of the hydrant needs. Steve did meet with Judd Burgess and Ryan Gardner, and together they are looking at four possible hydrant locations. Steve will get three bids and submit a report to the Board. George said that we have enough money available to install four hydrants. Ballpark costs will be around $3000 each. * The Lodge has been purchased by the family of Larry Gardner. They also own the Brandin' Iron.
**Jeff**: Jeff asked if anyone had the phone number for Dean from 'Public Works' (Road). Gerald said that the number was the same as Wendell's used to be. * Speaking again of the road opposite the Brandin' Iron - if it was paved in asphalt, it could become very washboarded. John wondered what was on the road to the PV dump because it is very nice and smooth.
**Herman:** The State located the Consumer Confidence report for the PV Irrigation Co. It was posted on a bulletin board and not a State web site. The PV Irrigation Company's annual CCR is available, but only by request.
**John:** John is still trying to contact Kevin Keyes regarding the Rural Preservation project.
**Fire Chief:** See Gerald's report. * Slow month with only four EMT call-outs. * Del Nordbruch is our newest certified EMT. The PVSSD will reimburse Del the $2200 cost for her 'Basic' EMT training at Dixie University. She is now in 'Advanced' training also at Dixie, which will cost $1800. A question

arose about whether the PVSSD also pay for that training. Gerald had suggested to Dall that she either take the training at DXATC or at the Enterprise Fire Department, both of which are less expensive than Dixie. Del chose to continue at Dixie since that was where she was already established.
**Treasurer Report:** See George's Profit & Loss statements for February 2015. * George met with Doug Labrum to revue our insurance. Doug was very complimentary about the Utah Government Trust insurance we already have. UGT is designed specifically for government entities (which we are), so they are a good fit for us. We have good liability insurance through UGT, as long as we follow all the rules – one example being that when we have events, they need to be "community organized community events." Doug did have a few concerns about the coverage we have for the inside contents of the building. He advises us do an inventory report for every single thing, along with its replacement value. He said a video tape of all inventory should also be made and then stored for safety somewhere off premises. Doug also advised that we consider a higher deductible. His reasoning is that our big vehicles will not depreciate much, but our smaller vehicles will. George wondered if we still even need collision coverage on our older vehicles. We are all very grateful for Doug's work on our behalf.

Beverly thanked everyone who came to Jamie's celebration of her Dental School Scholarship and Army Officer Commissioning. There was a wonderful turnout and show of support. * Beverly also asked if anyone might be able to help in getting a fireplace stove installed at the home of Glen and Eva Mack home. The Udell's would like to donate the stove to the Mack's, but need aid in getting it moved over to the Mack's and also someone who could help install it. Steve Shakespeare, John Nichols and Jeff Gardner all said that they could check into what it might take to get all that accomplished.

John motioned to adjourn the meeting at 7:00 p.m.
