Board Member Reports:

Frank mentioned the community talent show on April 13 and the Nuclear Protection & Planning workshop on April 27.

Tom noted that he is working on the traffic report data for the board meetings and the sheriff's department.

Tom reported that the two community signboards as you enter Pine Valley near the chapel need some attention. It has been proposed to take one of the signs and place it by the mail building for community posts. Enclose the second one, add a map and other significant information, and paint. The board discussed the best options for the signboards. One will be moved to the mail building and the other will be enclosed with a map and other Pine Valley information. Gene was asked about producing a map.

Herman reported the county arrests and bookings are average. Releases are below the maximum, and the jail population is at a maximum. He noted an organized human traffic case last month in St. George, in which the police force was able to free someone. Herman commented that human trafficking is a global problem to be aware of.

Bob explained the history, health, vision, economic development, and transportation planning of the Five-County Association of Governments, among other affairs.

Community Watch: Gene proposed a Traffic Contingency Program (TCP) and requested radios, chargers, and a tent. The intention is to be prepared/trained to handle emergency situations on the road if needed. The radios would allow communication between those attending the streets. He presented the pricing. Frank asked for input from the board, and a discussion was held about whether these items were needed and the cost factor. Emily asked if the Community Watch Program is under the scope of the PVLAD, and after some training from the state, she proposed we postpone this item until May.

> **Outcome of Recent Planning Meeting at Veyo Community Center:** Gene reported that Tom, Frank, Herman, and himself attended. Several people from Veyo, Gunlock, and Brookside discussed the SR-18 coalition. They discussed reactivating the communities to be more prepared.

Sheriff's Office Review: No report from the sheriff's office.

Treasurer Report: Rick reported the March financials. Bob approved, Emily seconded, and all in favor.

May 1st Public Hearing Preparation on the Assessment Fee Increase: Emily mentioned the Utah mandatory online board training.
