Social Media Policy

Adopted April 2, 2025

Purpose
The purpose of this policy is to ensure that PVLAD board members who use social media do so in a responsible manner that supports our mission and helps build a trusting relationship with the community.

Procedures
All official PVLAD social media sites shall be approved by the board chair or his/her designee.

Social media content shall adhere to applicable laws, regulations and policies, including all information technology and records management policies. Content is subject to public records laws and HIPAA laws.

Personal Use
Members are expected to exercise sound judgment, good common sense, personal responsibility and accountability in social media posts.

Members may not post, transmit, or otherwise disseminate any confidential, sensitive, or potentially sensitive information or pictures to which they have access as a result of their membership in the department or board.

When appropriate, members should acknowledge opinions expressed are their own and members are not representing PVLAD.
