Pine Valley Local Administrative District ("PVLAD")

Meeting Minutes – PENDING

Pine Valley Fire Station, 680 East Main Street, Conference Room

July 8, 2026, 6:00 P.M.

Board Members: Frank Davie, Chairman
Tom Nielsen, Vice Chairman - Excused
Emily Neilson
Brad Esposito
Cortney Snow

PVLAD Assistants: Rick Peetz, Clerk
Teri Forbes, Treasurer

Fire Chief Robert Hardy

Others: Rob Nodine
Gene Phillips
Allen Cannon
Steve Shakespeare
Duane Krohn
Audrey Krohn
Claudia Davis (via Zoom)
Brian Davis (via Zoom)
Bob Dalley
Mark Owens (arrived at 6:17 PM)

1. Welcome, Prayer & Pledge of Allegiance – Cortney Snow and Chair Frank Davie.

Chair Frank Davie called the meeting to order at 6:00 PM.

The prayer was offered by Cortney Snow. Chair Davie led the Pledge of Allegiance.

Chair Davie reported on the recent 250th Fourth of July celebration, which was a great success. He stressed the importance of remembering the importance of the nation and the freedoms we all enjoy.

2. Pine Valley Overlay Zone Business – Emily Nielson.

A. Greer Development Request.

Emily Nielson recognized the applicant, Shannon Greer, and expressed the Board's condolences over the Greers' loss of their home in the Forsyth Fire. She was pleased that the Greers will be rebuilding and stated that the Pine Valley fees will be waived. The intent tonight was to compare what is proposed to the Overlay Zone.

Emily explained that the building footprint can be no more than 50% of the lot to preserve open spaces. That figure was not immediately available but was needed before a recommendation could be made by the Board. It was noted that ground floor decks are included in the building footprint.

Emily explained that the limitations are based on the Overlay Zone, which was passed a few years ago. It was community-driven with the intent of taking the existing County Codes and adapting them to help preserve Pine Valley's rural lifestyle. The Overlay Zone allows for different types of development and protects against larger businesses coming in and preserves the current way of life.

Wood shingles are not allowed. Outdoor lights must be fully shielded to address strict outdoor lighting requirements. Outdoor lighting must be fully shielded and down-lit. In addition, there can be no landscape or under-eave automated lighting. Emily urged Mrs. Greer to read that section of the Overlay Zone to avoid surprises down the road. It was noted that the County has imposed stricter outdoor lighting requirements. Outdoor lighting in Pine Valley is important because residents want to preserve the dark skies.

With regard to fencing, Emily explained that the Overlay Zone does not allow solid material fencing. Mrs. Greer stated that they intend to have retaining walls in the rear of their property. Emily suggested she address that issue with the County since retaining walls differ from fencing. The intent is to ensure that sightlines are not obscured.

Short-term rentals must be licensed by the County, and the Overlay Zone limits short-term rentals to no more than 5% of the home inventory. The Overlay Zone also includes several suggestions, especially pertaining to residential standards, which include colors and materials. Accessory Dwelling Units are also addressed in the Overlay Zone with limitations placed on the percentage of property that can be built on.

Pine Valley is in a high-risk area for wildland fires, so no fire pits are allowed other than those that are permanently installed. The Urban Fire Interface is followed, for which a link was provided.

Mrs. Greer was encouraged to join Community Watch, which is led by Gene Phillips, as well as Nextdoor, where community information is posted.

Courtney Snow reported that based on the plans, the maximum dimensions of the home can be 60’ x 77’, or 4,620 square feet to meet the 50% lot coverage requirement. Brad Esposito and Rick Peetz agreed.

Emily Neilson moved to recommend the County APPROVE the Greer Development Request. Brad Esposito seconded the motion. The motion passed with the unanimous consent of the Board.

Emily informed Mrs. Greer that Treasurer, Teri Forbes, would be submitting the signed approval to the County the following morning.

3. Meeting Minutes.

A. Approval of the June 10, 2026, PVLAD Meeting Minutes.

Cortney Snow moved to recommend APPROVAL of the June 10, 2026, PLVAD Meeting minutes. Emily Neilson seconded the motion. The motion passed with the unanimous consent of the Board.

4. Board Member Reports.

A. Pine Valley Activities – Frank Davie.

Chair Davie reported that 785 people were served breakfast on July 4th. An Emergency Medical Services (“EMS”) call came in during the event, so those involved did not get breakfast. Mitzi Sullivan, the Activities Committee, and the volunteers who helped out were thanked for their efforts. For the program, Jon Lee acted as the town crier and did a wonderful job.

The next community event will be the July 24th celebration. Similar numbers were expected for that event.

B. Traffic Report – Tom Nielsen.

Tom Nielsen reported that officers patrolled the valley over the weekend. A number of citations were issued.

Traffic data has been steady over the past several months. The sign near the Brandin’ Iron is broken, but statistics were available through June 11 with 2,200 fewer cars recorded in the first 11 days of the month compared to the same time period last year. Near the Neilson home, there was no available data, with 9,200 cars recorded the previous year. Near the Sullivan home, there were 225 fewer cars this year compared to last year. The decrease was attributed to the park being closed. Near Rachel’s home, the sign was working with about 1,000 more

cars traveling eastbound from Lloyd Canyon. It was noted that there is a lot of construction taking place there and a lot of traffic.

It was noted that there have been a number of logging trucks coming from the park area.

5. Community Watch – Tom Nielsen & Gene Phillips.

Gene Phillips reported that Mike Stucki will replace his late wife, Renee, as the Community Watch Block 2 Assistant to Brad Esposito.

An upcoming Call to Action is scheduled for August 8 at 3:00 PM.

Gene reported that information will be sent regarding how to operate radios. 96.1 FM will also broadcast at 4:00 PM for those who do not have radios. They are preparing to purge the address list and ensure that all contact information is correct. That was expected to be completed before August 8.

The current Community Watch enrollment is 115.

Chair Davie reported that the St. George North LDS Stake has an emergency radio net that is a two-meter HAM frequency. Ken Kenold, Callsign KB6KKW, who was our net control, recently passed away, which was the reason he was not running that control. Efforts were being made to get it going again. Currently, Chair Davie and Gene are the only HAM radio operators in the valley. There is a HAM radio at the fire station, and Gene has one at his home.

Gene reported that he was net control the previous night on the Transcontinental Digital Network, which goes coast to coast. They do digital work from Oregon and California and across the United States. There are three different controls. Messages are passed digitally so that everyone across the United States can get the messages that are sent out. Chair Davie pointed out that HAM radios are intended to back up other forms of communication if and when they fail.

Gene commented that with regard to HAM radios, he put together a network with Community Watch where the SR-18 corridor is covered by HAM operators from Enterprise to Diamond Valley. Gene noted that he has been with the Washington County Emergency Operation Center (“EOC”) for 15 years.

6. Clerk Report and Treasurer’s Reports (June) – Rick Peetz and Teri Forbes.

Clerk, Rick Peetz, reported that payroll went through and some interest came in. A transfer of $10,800 went through to this entity but will show on the July statement. Law enforcement costs will be submitted at the end of the season.

Treasurer, Teri Forbes, reported that the account balanced and is in order.

Tom Nielsen moved to ACCEPT the Clerk and Treasurer's Reports. Brad Esposito seconded the motion. The motion passed with the unanimous consent of the Board.

7. Citizen Requests. Any person wishing to bring an item not otherwise on the agenda is to bring it to the attention of the Board Chairman, Frank Davie, and the additional members of the Board by raising their hand and giving their name for the record. The Chair or Board will take no action at this time. All items will be referred to the board for follow-up and report.

The situation at the dump was discussed. It was reported that garbage is collected twice a week. Bob Bailey was concerned that refrigerators and furniture are being left on the ground. He noted that large items that cannot be placed in the dumpsters should be taken to the dump in Central.

Tom reported that he visited the Central dump some time ago and got some pushback from the person working there. Recently, he watched a couple go to the Pine Valley dump with several mattresses and other large items. He stayed and watched to ensure that the items were placed in the dumpster. He doubted they would have been placed there if he had not stayed.

Gene reported that recycling was picked up last week.

Chair Davie noted that the dump was the main focus of the recent Pine Valley Cleanup. Duane Krohn, who oversees the dump with his wife, Audrey, has posted photos of offenses on Nextdoor to encourage people to properly place items in dumpsters.

8. Other Business.

There was no other business.

9. Adjournment.

Brad Esposito moved to ADJOURN. Cortney Snow seconded the motion. The motion passed with the unanimous consent of the Board.

The meeting adjourned at 6:38 PM.

The next PVLAD meeting is scheduled for August 12, 2026.
