- Lynn Block reported that they have internal discussions with Kim (postmaster in Cedar City) based on internal regulations that addresses mail for street delivery to a conventional P.O. Box configuration.
- They are awaiting a ruling so they can finalize equipment to be used.
- The preference would be that we continue to qualify for mail delivery as it is now except that our current postman would be able to file from the back and have additional security that our design would provide.
- Lynn stated that they are all very supportive and excited of our desire to have a more historic permanent P.O. Building.
- Mark Owens will be able to provide the Plat Map that Frank and Kent can use to develop our overall plan for the Forest Services approval once we have the size of the building.
- We should explore building names that we might title the building that would put us in a position to request funding support from 5 counties.
